- **Team:** Built and led an 8-person marketing team at a co-founded startup and took the company to a private sale.
- **Systems:** Designed an 18-workflow lead-to-revenue system with AI built in, cutting about 40% of time on onboarding and email follow-up.

EXPERIENCE

Fractional Marketing Lead, Growth Systems (Contract) **Dec 2025 – Present**
Pillar Studio Systems Remote
Revenue-infrastructure business serving boutique fitness studios. Retained to design its lead-to-revenue system.

- Built the system to handle 20 studio clients in its first year: designed first for one Pilates studio, then scaled into a repeatable system over about 8 months, including testing.
- Scoped the funnel, CRM data model and automation; hired and directed 3 freelancers, including a CRM developer and a designer, against one shared quarterly plan through build and pre-launch QA.
- Set the system design and owned delivery: a 14-page funnel and 18 automated workflows for lead scoring, routing, nurture and win-back, with consent built in.
- Audited every manual step, then built AI into content production, lead-magnet creation, onboarding and email follow-up.

Senior Social Media Manager, Marketing and Communications **Nov 2022 – Oct 2025**
Merrithew Toronto, ON

Scope: Led social, creator, paid social and integrated campaigns for a multi-brand portfolio. Three direct reports. Six-figure annual paid social budget.

- Rebuilt the creator and ambassador program around acquisition cost (briefs, usage rights, tracking and paid amplification in each market) and scaled UGC to a 500K+ audience; partner reels reached up to 4.6M views.
- Created an athlete video series with NFL and NBA stars to bring Pilates to athletes at every level, with videos at 1M to 1.3M views.
- Forecast and paced paid social spend across Facebook, Pinterest and Reddit, moved budget to the best-returning channels and markets, and reported results to senior leadership in business terms.
- Coached the social and community team through standards and weekly working sessions; one direct report was promoted to project manager.
- Drove inbound social demand generation (organic, partnerships, paid social, landing pages and lifecycle) supporting B2B and DTC revenue and a sales-led pipeline, with a focus on inbound lead quality.
- Helped split STOTT PILATES into STOTT PILATES Academy (instructor education) and STOTT PILATES Studio (classes) over a 12+ month project, shaping each brand's content and the guidelines for all three through launch.
- Built the social side of every major launch (a new education platform, education programs, equipment and sales events such as Black Friday) with Events, Education, Sales and Design.
